Eager to contribute to innovative projects, showcasing adaptability, quick learning and a collaborative spirit. Excited about the opportunity to grow and excel in a dynamic IT environment.

## WORK EXPERIENCE

**CodingEra Software Pvt Ltd**

Frontend Developer

December 2021 - PRESENT

## PROJECTS

- **Frontend Project- TicketXpert**

  **Technology Used :-** HTML5, CSS, Bootstrap, React.js ,Redux,Material UI

  **Team Size:-** 5

  **Description:**

  TicketXpert is a ReactJS-powered project for streamlined ticket management and employee leave within organizations. With roles such as 'Login', 'Employee,' 'Department Head,' and 'Admin Department Employee,' the system allows employees to create tickets, which are then efficiently assigned to the relevant department by department heads. Admin department employees resolve the tickets, ensuring a smooth workflow. The platform also facilitates leave requests, enhancing overall organizational communication and efficiency.

- **Frontend Project-AmuseVista**

  **Technology Used:-** HTML5, CSS, Bootstrap, React.js ,Redux,Material UI

  **Team Size :-** 5

  **Implementation Highlights:**

  Designed and created AmuseVista using React, a platform merging luxury resorts, amusement parks, and wedding planning seamlessly. Specialized in optimizing functionality through strategic API calls, ensuring dynamic content integration. Focused on the wedding planning and amusement park aspects of the AmuseVista platform. Designed and implemented UI for wedding pages and amusement park and additional sections such as Main Booking and Enquiry.
